Introduction

WINTEC ESL (Electronic Shelf Label) possesses a number of core independent R&D technologies, maintaining a leading position in the industry. With excellent product quality and a complete service system, it has won high recognition from international customers, and its products are exported to more than 50 countries and regions including Europe, America, and Southeast Asia.

The product application scenarios cover retail, fashion, catering, digital stores, jewelry stores, home appliance markets, pharmacies, warehouse logistics, and conference scenarios, etc. Relying on low-power operation for significant energy conservation and automated management to avoid manual intervention. WINTEC ESL is not only greatly reduces operating costs, minimizes errors, and improves operational efficiency, but also brings a green and efficient intelligent solution to commercial management.

Core Highlights:

- **High Control Precision**
- **Highly configurable display content**
- **Long product lifespan**
- **Real-time two-way communication**
- **Integration with retailers' digital systems**

Shelf Rail 007
